

CUT RISKS
CUT WASTE
CUT COSTS

martor
THE SAFER WAY TO CUT.

OUR THREE SAFETY TECHNOLOGIES

1 SECUMAX

CONCEALED BLADE MAXIMUM SAFETY

The blade is concealed to shield you and the packaged goods from the cutting blade. You avoid cuts and your products and surfaces are protected from blade damage.

2 SECUPRO

FULLY AUTOMATIC BLADE RETRACTION VERY HIGH SAFETY

The intelligent cutting tool: as soon as the blade leaves the cutting material, it withdraws automatically into the handle. In short, the knife over-rides the user.

3 SECUNORM

AUTOMATIC BLADE RETRACTION HIGH SAFETY

Thumbs up for a high degree of safety. As soon as you start cutting, remove your thumb from the slider. Slider and the blade retracts into the handle. In short, the user can over-ride the knife.

CUTTING RISKS, NOT EFFICIENCY

A safety knife is an investment in efficiency and safety. Our wide range offers optimum solutions to your cutting challenges both safely and often with measurable productivity improvements. Using MARTOR brings to life the adage, 'A safe operation is an efficient operation'.

ON-SITE RISK ASSESSMENTS

Every business uses knives, many with no thought to cutting needs or to safety. Cuts and nicks can be >50% of incidents, each one is a hidden cost and potential 'near miss'. We offer free Knife Risk Assessments to identify personnel risk and eliminate product damage.

STOP PRODUCT DAMAGE

Careless knife use results in scratches, slashes and costly accidental damage. During >10,000 Risk Assessments we have seen eye watering hidden costs from knife damage. We saved one clothes retailer £5,000 per week with the right knife. Let us help you.

PRINT YOUR LOGO ON A KNIFE

Do you want to promote your company with a useful tool or giveaway? Do you need to identify your products? We offer a printing service on 45 knives. Please contact us.

218 x 12 x 82 mm
93 g

SECUMAX 565
NO. 565001
216 x 13 x 83 mm
122 g

HOLSTERS

Injuries don't just occur when the knife is in use. They can be just as dangerous in pockets, carried by hand or left lying on work benches. By providing a safe and convenient place to keep the knives, our holsters are a simple and cost-effective way to further reduce the risk of injury in your business.*

*Holsters are sold without the knives.

SMALL HOLSTER
NO. 9920
215 x 53 x 23 mm

MEDIUM HOLSTER
NO. 9921
215 x 60 x 28 mm

LARGE HOLSTER
NO. 9922
215 x 68 x 40 mm
